

I listen to K-LOVE radio at 91.1FM here in the Denver, CO region. I want to make sure they are not bumped off the air by the changes to the LPFM rules. Just a few months ago, my wife and I attended a barbbque that they put on locally for some k-love listeners. I've locally met several of their on-air personalities. This is more than I can say for ANY other radio station in the Denver area.

Without K-LOVE in my region, we would be missing a great positive support for the community.
